SOUTH AFRICAN STYLE...

This is the type of car they are now racing at Johannesburg — strictly Americanised Hot Rods. The driver is Aylesbury born Clive Brooker, who holds the South African Match Race championship title. He drives a Buick ohv V8 engine 'device' known as the 'Carburol Special' — and has told us that he is anxious to come to England to race in our World Final. He also has something of a reputation as a motorcycle stunt rider. Note the tyre sizes!

BACK COVER BOYS . .

The 'Racing' CHISHOLMS from Wheathampstead, DAVE (552) and TED (756) are building up something of a reputation in Formula II circles with their spirited driving. Both are now in their third season of racing and have collected a large following of supporters—including their sisters and their families.
